D; OF D, NOV 6 1914 7-0.3.1/19/14

### Mortality Statistics of 1,190 Cities and Towns of the United States for the Year ended December 31, 1900.

[This table was compiled from answers received to circular letters sent to cities and towns of the United States having a population of 1,000 or more. The cities and towns responding have been entered herein. Attention is called to the two columns showing the annual mortality rate per 1,000 of the population, the one column being based on the estimated population and the other upon the population according to the United States Census of 1900.]
